
LCD enclosures

Posted by Advertise Me Pty Ltd - 2008/10/10 15:09

If you're planning to install your display screen in an outdoor environment, have you thought about protecting your investment by using LCD enclosures?

I'd be interested in information on vandal proof & weather proof enclosures.
I would also like information on alloy frames for video walls

We manufacture LCD enclosures for outdoor digital signage solutions, just send me a PM and I will contact you outside the forum.

Our solutions protect against vandalism and extreme weather.

Would you be able to share how the enclosures are protected against vandalism. Thanks.

Yes, the locks are special tamper proof locks and the viewing window will protect from a .22 bullet.
