
Digital Signage Enclosures

Posted by grahamgallagher - 2009/11/18 06:44

We are the worlds leading manufacturer of protective TV cases for outdoor use and due to our current position we are seeking distributors throughout America and Australia.

We manufacture solutions for gas pump digital signs as well as outdoor signage enclosures.

The truth be told, we could do with some distributors to deal with the sales leads, but I guess that is what you have to deal with when you are at the top of your game.

Welcome to the forum! Have you tried contacting many of the DS providers?

Travis, that is a fantastic idea! We have been too busy "fire fighting" rather than actively looking for distributors. But we will dedicate some time to it over the Holiday season. Have a great one.

Graham

There are a lot of companies that actively seek out gas stations and convenient stores to run DS in. That would prolly be your best bet where to start. When you search online for them search by city it usually makes searches easier. HAPPY HOLIDAYS!
